To: Front Step Program

RE: Summer / 2010

To whom it may concern:

Stenton Park Playground would like to thank the Front step program for their efforts and assistance with helping our children and the recreation center. The Front Step program was a great influence to our children in our summer camp and the kids that live in the community as well. Front step community service program has enhanced the beauty of the Stenton Park Playground. The painting of the fence, the repairing of the chain link fence, gardening and repairing parts of the sport fields and their overall efforts are very deeply appreciated. The structured basketball league, art and crafts, and feeding the community, has helped this community appreciate their environment and their recreation center.

Sincerely,

Tyrone Gross, BA.
Facility Supervisor
